

## **WELCOME DEAR FRIENDS NEW PRODUCT USERS & CONTACTS TO THIS FREE NEWSLETTER!**

**Before we refer you to some exciting information below, I want to share a few things from my heart. The reason I am so excited about Torah based Kanah Basham Le-Terufah CBD oil, is because I have seen it change my own health and scores of others I love and care about. I want you and yours to see that same result and blessing from YHUH Almighty. It is not just about making \$\$\$\$. I can do that many ways, much more effectively, with bigger payouts and besides, some tithes from people to YHUH are given to me by YHUH, to sustain us fully, so I am in need of nothing, for these past 35 yrs. of viable and fruitful public ministry! I see this launch, as part and parcel of my ministry, BIBLICAL PROHECY BEING FULFILLED, not some separate business venture!**

**The reason I have set out on this new journey, is because for the first time in decades, I am relatively pain free. Now that doesn't mean I don't have occasional aches and pains but generally it is gone! My severe arthritis, soreness and tightness throughout my body is gone. Praise Yah! The same for my wife Rivkah, who has suffered with OCPD since childhood and her improvement, is 80%! Others in our community have reported great relief from various afflictions, from sleep deprivation to shoulder pain, even from dementia and brain fog! The benefits are limitless.**

**I am doing this venture risking my own capital and my time in order that you and other believers may also partake in this heavenly restoration, as cannabis is taken back out of the hands of s.a.tan and restored to HIS people for their benefit! The Book of Chanok-Enoch has much to say about how Azazel-Lucifer stole the healing aleyahs-leaves and taught men how to make Pharmacia or harmful drugs. Now in our day, The Ruach HaKadosh is binding the strongman, in order to return the purity of the hemp plant back to the lawful hands of believers and Torah honoring saints! It was intended for us who desire to use it in an upright fashion!**

**To that end I have been on a 6 month education mission and am able with relative certainty, to give understanding and advice on most things related to legal CBD oils. I have been burned by crooks and charlatans along the way, who didn't pay commissions, didn't ship products and lied about the ingredients, as well as being blessed by legitimate businesses who desire to help people and whose motives are pure. I have studied which strains work for what; and have spent hundreds of study hours to educate myself in order to help others like you. This has become a passion of mine and a keen interest item, kind of like a Torah hobby, as I see this as a simple Acts 3:21 restoration issue. So regardless of how you see things, I know this restoration can help you, as CBD finds the area in your temple and goes to work after floating to the areas you need repaired! It is an amazing plant and leaf and it guarantees to build and repair the immune system, as well as the nervous system. YHUH made us all with cells and those cells have cannabinoid receptors! And they have been starved for cannabinoids all these years, as big pharma doesn't feed the receptors but rather gives us laboratory potions, to deprive those receptors of the very thing that keeps us alive! Cannabinoids!**

**Spend some time at our Education Center link and study all this out for yourself. It will be well worth the time! When I saw what this does to help, heal and grant hope to people, I became amazed, that I too can have a small part in it. I learned enough to know the good and the bad oils out there. Now after 6 months and all the in depth focus, I came to a startling fork in the road. I shall pose the troubling question and then answer it, Yah willing, in our [you and I] newsletter. Here is what troubled me! If the main 2 ways hemp is distributed after extraction is in either ISOLATE, where just the crystals and subsequent powder are extracted versus full spectrum, where everything that the plant has is extracted and purified, then why is it an either or situation? Says who? Why cannot both methods be combined, to give people the maximum benefit? Why are there no answers online or by farms or companies that distribute what is grown? That led me to where I am today and what I see as a solution to that question, both literally and figuratively! So for now, let's leave the rest of my account for part 2 and our next newsletter. By the way**

**you can also send me your testimonies and insights and we may publish them in a future edition of TEMPLE HEALTH NEWS!**
